

TBF of CT monthly meeting minutes for April 19, 2018

Present were: Mid State, Bio Bass, Southeast and Fishing Crew.

Minutes were approved as written.

Tournament Report:

First tournament is just around the corner. We welcomed three new members tonight and they entered this tournament on Candy. We will be trying to get a real tournament committee together to run the events.

Pairings will be put n the website and you will get an email telling you they are posted and it will include angler contact info.

Old Business:

National Semi Finals is scheduled for Ticonderoga N.Y. for the week after Labor day. Practice is Wed. Thurs. Fri. Tournament is Sat and Sun. Labor day and that Tuesday ARE OFF LIMITS. You can practice Labor Day weekend – JUST NOT MONDAY – Labor Day.

We still have a 7 inch Lowrance and an 80 pound Fortrex trolling motor.

The first of the new flags are in. The TBF of CT flag was set up for this meeting. We think it looks good. We are working with the flag company. Amy realized she had underestimated the cost of the sponsor flags. Amy made a motion to allot up to \$800.00 more for the sponsor flags. The motion was voted upon and passed. Amy said the rest of the flags should be in before the Lilly Tournament.

TH Marine and Napier and other minor sponsors can be displayed with a banner on the table front at tournament weigh ins. Amy will look into this and report back to the board.

Respectfully submitted
Amy Perry TBF of CT Secretary

TBF of CT Two Day is Rescheduled....

We need to adjust the NSF qualifier. The trail this year needs to change to 3 out of 4 tournaments. So we will determine the trail NSF qualifiers at the end of the Zoar tourney on July 22nd.

The two day will be August 4th and 5th

National TBF requires us to hold our qualifiers for the NSA at least 30 days prior to the NSF. This year the NSF is Sept. 8 & 9. (a month earlier than last year).

On Thursday we will be discussing holding the July TBF meeting a week late – July26th and have the two day pairings the same night.
